SKIN CARE TREATMENTS

All facials include skin analysis, double cleansing, exfoliation, extractions (except Express Facial,) mask, and hand & arm massage.

Anti Acne Facial - \$70

A great treatment for anyone who suffers from acne. Through the use of Oxygenated products, we can achieve great reduction in inflammation and congestion so commonly visible in acneic skin. This deep cleansing facial will help keep acne at bay by stopping the spread of P-Acne Bacteria, the main culprit of acne.

Rosacea Cooling Facial -\$70

This wonderful facial takes extra care to desensitize, cool, repair, and sedate tender, over stimulated skin. Rosacea is a skin condition that is not curable, but we feel that we can control it by treating it kindly.

Microdermabrasion (Diamond Peel) -\$120

The Diamond Peel is a type of microdermabrasion that uses a wand w/natural diamond chips to gently exfoliate the top layer of the skin, while vacuuming the dead skins cells away in a sterile and controlled manner. This leaves a smoother texture and promotes the growth of healthy, new skin cells. Microdermabrasion also stimulates the collagen beneath the surface of the skin resulting in a healthier and firmer appearance. It is non-invasive, painless and requires no downtime after treatments.

Classic Euro Facial - \$75

Our most popular facial. Designed for those who simply want to escape and have their skin pampered. A facial, neck and shoulder massage will de-stress the mind, and your skin will glow.

Enzyme Peel Facial - \$65

A deep cleansing facial, great for those who wish to have impurities swept away in minimal time. Perfect for teens and men.

Express Facial - \$45

In a hurry? An Express Facial will cleanse, exfoliate, and hydrate your skin in a jiffy. Your skin will look healthy & glowing.

Power Peptide Resurfacing Peel - \$80 - \$90

This powerful resurfacing peel incorporates 20% lactic acid and 20% glycolic acid to exfoliate deeper epidermal layers, while peptides help to rebuild collagen and elastin fibers and reverse the appearance of aging and damaged skin. The advantage of this peel is to improve the color, texture, skin tone, and treatment of fine or medium-depth wrinkles.
